

COOL ME DOWN (Black Seeds)

[Cm – Dm]

From the hillside to the sea
Let your love wash over me, oh yeah
Over river, mountain, skies
Watch it drift on through the skies

Tide rolls out, tide rolls in
Let your love inside begin to grow
Let it bloom into something beautiful
Something beautiful, yeah, yeah

Come on just

Cool me, cool me
Cool me down
Cool me down
Cool me down

Let your love wash over, wash over me
Let your love wash over me
Wash over me, girl
(Yeah, yeah, yeah)

I feel your seasons changing me
Winter fires, autumn breeze
A sweet song rises, watch it breathe
Your shining light for all to see

Tide rolls out, tide rolls in
Let your love inside begin to grow
Let it bloom into something beautiful
(Yeah, yeah, yeah)
Something beautiful

Cool me, cool me
Cool me down
Cool me down
Cool me down

Cool me, cool me
Cool me down
Cool me down
Cool me down
