

Ghosted by Dino Rustin

[HORN INTRO x2]

Saw you last night – thought everything was going good
I didn't realize – that it was not going as well as it could
I left you, you left me – you left me all alone
So the next day I tried you on the phone

[HORN BREAK x1]

I never heard back – Figured you'd just lost my number
Where did we go wrong? – I had to sit back and wonder
But my confidence will not be shattered today
I'm sure you'll call me back, I'm sure you're gonna call me back someday

I think...this is what getting ghosted feels like!**

[HORN INTRO x2]

So I waited a couple more days – thought I'd try you once again
Figured you'd just forgotten to get back to me
But I got your voicemail – and then you texted no reply
What's going on here? There's no way that I could be that guy!

[double time solo break]
